3 Remarks The so-called Coolie huts (altogether 50 in number) were undertaken in 1898 for the purpose of housing the City Municipal Sweepers A sum of Rs 2604-2-11 had been spent on them till the year 1903 leaving them in an incomplete state In Nov: 1902 the Govt visited them and considering that the large sum of money already spent on them would be wasted unless they were turned to useful purpose ordered that they might be repaired economically at Govt cost and made available for housing the Coolie population who had then been reported to be overcrowding verandahs and other houses in the City

The so-called sweepers-knots are not liable to be collected by coolies or other humble persons. This completion at a large cost is therefore a measure of questionable propriety. I have already given my opinion on this point in my note of 9-9-02. Sanitary or insanitary, the locality is not attractive. Professional opinion therefore will not be of help in a decision one way or the other. The Department recommendation may be observed. 20. Yes 12154

To,

Secy.to the Govt.of H.H.the Maharaja of Mysore.
General and Revenue Departments.

Sir,

With reference to your No.2843/M1.(100-05)-6 of 14th September 1905, calling for a detailed report as to whether the sweepers huts at Bangalore have been reported completed and whether they are being used by the cooly population etc., I have the honor to submit herewith the correspondence ending with the Bangalore Amildar's report No.24 of 25th September 1905, in which he states that besides Rs.3350-13-7 already sanctioned by Govt. he would require an additional allotment of Rs.1173/- to com-pleted these huts as they are reported to cost more than what was estimated before. It is reported that out of Rs.3350-13-7 sanctioned for this purpose, a sum of Rs.1216-14-4 has been spent leaving an available balance of Rs.2133-15-3.

2 The President City Municipal Commission who was request-ed to be informed if, even after spending such a large sum on these huts, there was any probability of their being occupied on reasnable rents replied stating that it was not worth while -- spending any additional amount to complete them, since these - huts are too far from the place of work of the Municipal sweepers, that the few who work near them refuse to occupy them, as they are unwilling to be detached from the company of their relations and that moreover the close proximity of these sheds to the Lal Bagh Tank would not be conducive to their health.

3. The labouring and cooly classes who work in the City are stated to be quite unwilling to live in the sheds, even free

of

of rent, as they are far away from their working places- (Vide copy of his docket No.1849 of 26th January 1906) 12

4. In concurring with the President, I am of opinion that these huts situated, as they are, far away from the town would not give sufficient inducement to either the labouring classes or the Municipal sweepers, for their occupation, besides they are very close to one another and are too small and consequently any income in the shape of rents etc., is far to seek. built

5. I would therefore propose that the idea of restoring them at a prohibitive cost may be abandoned as it would serve no purpose and that these may be ordered to be sold by auction and the proceeds thereof credited to Government.

I have the honor to be,

Sir,

Your most obedient servant,

Deputy Commissioner,

Bangalore District.
